

## ANNOUNCEMENT

## Supporting Turnaround & Change

Demonstrating its commitment to the restoration of value in troubled businesses, PILOTpartners announces its Foundation Sponsorship of the Turnaround Management Association (UK).

*"I am delighted to confirm PILOTpartners as a Foundation sponsor of TMA (UK) from 2009. Recently launched, PILOTpartners was founded by James Wheeler, who is acknowledged to be one of the industry's few, in that he is one of the leading and most respected providers of interim executives to the turnaround, restructuring and rescue community both here in the UK and in Europe.*

*James remains totally committed to the promotion of TMA's fundamentals - in the development and promotion of Turnaround practice for the benefit of the wider economy, having been actively involved in its promotion since its inception in the UK in 2001. I am sure our continuing relationship will prove beneficial to both our respective organisations and I welcome it.*

*To James and PILOTpartners, I wish them every success, and would like to take this opportunity to thank them for their continuing support of TMA, without which our aspirations would be substantially diluted. The support of our sponsors is critical to our future success in supporting all sections of the turnaround community, and in particular the providers of interim executives and non executives"*

Tyrone Courtman  
TMA (UK) President
